Trade and Industry

Edible Oils Products

We are offering many products in various sizes since the start of operation in January 2020. The products are widely spread and sold in the largest sales centers all-over Egypt and it gained the satisfaction of the consumers.

In addition, we exported to Arab, African countries and others, as a result of the consumers' confidence in what the company offers in terms of quality and competitive prices.

Corn Oil

Sunflower Oil

Blended Oil

MILLS

Mills Products

We are offering flour in various sizes for flour available for all baking purposes. Our flour products are unique in their quality as the machines that we have are the latest technology. Our flour has the best specification as it contains Vitamin B and iron.

We are offering Pasta in various sizes and shapes. We are aiming to expand our sales to many African and non-African countries. Our pasta is low-fat and enriched with vitamins and minerals.
